The main reason leading to an increase in business result of the first 6 months of 2022 compared to the first 6 months of 2021 was as follows:

In the first 6 months of 2022, the weather was favorable, Capacity of water flowing to the Hydropower reservoirs of SBA was more than that of the first 6 months of 2021, so quantity electricity generation and revenue increased respectively by 45.58% and 69.60 billion VND over the same period in 2021. Although the cost of goods sold increased by 14.34 billion VND (Mainly due to the increase in depreciation expense based by quantity electricity generation), but profit after CIT of the first 6 months of 2022 has been increased **52.65** billion VND, compared to the first 6 months of 2021, which was equivalent to an increase rate of **137.48%**.

Song Ba Joint Stock Company hereby reports and pledges that the above explanations are true.

Best regards.
